

CALL FOR OUTSTANDING NEUROSCIENTISTS
TO JOIN OUR INSERM UNIT

Junior or senior post-doctoral fellow, researcher with an INSERM permanent position?
We invite you to join us and take advantage of our generous welcome package.

WHO WE ARE

Located in a modern building at Poitiers University, our 40 lab members are organised into 3 recognized research teams. We conduct investigations on neurological and psychiatric pathologies such as Parkinson's disease, cortical trauma, drug addiction and neurodevelopmental disorders. Approaches are cross-disciplinary (e.g. molecular and cellular biology, cell therapy, *in vivo* and *in vitro* electrophysiology, behaviour, imaging) and translational in line with Poitiers University Hospital and the Clinical Investigation Center-INSERM (*More details <https://lnec.labo.univ-poitiers.fr>*). Research interests of applicants are expected to fit into one of these research topics.

JOB OPPORTUNITIES FOR NEUROSCIENTISTS IN A SUPPORTIVE ENVIRONMENT

We are currently opening a range of opportunities at different career stages:

- **Junior post-doc level:** will receive training and support to apply for an INSERM permanent position and for Avenir Team funding (<https://www.inserm.fr/en/about-us/atip-avenir-program/>). If successful to INSERM recruitment, candidates will benefit from lab space, access to a wide variety of equipment and a welcome financial support totaling up to 300 K€.
- **Senior post-doc level:** will be eligible for an INSERM or university Junior Professor's position with a welcome financial support reaching up to 500 K€ if successful.
- **Researchers with an INSERM permanent position:** if your application is selected, you will receive a welcome financial support totaling up to 300 K€.

Recognizing the importance of a supportive environment, our welcome package includes:

- **Financial support:** ranging from 300 K€ to 500 K€ based on your credentials and job application.
- **Technical support:** experienced staff at core facilities and our own technical plateau.
- **Administrative assistance:** formalities, including visas, insurance, and other necessary documents.
- **Personalized mentorship program:** connecting you with experienced researchers for guidance in your INSERM researcher or Junior Professor's position.
- **Community integration:** Grand Poitiers assistance in finding accommodation, job for your spouse, school for kids, and other personal / family needs to facilitate your transition.

WHY CHOOSE OUR INSERM RESEARCH UNIT

- **Cutting-Edge Core Facilities:** a bio-imaging platform with modern light-sheet, confocal and electronic microscopes (sfa.univ-poitiers.fr/imageup/) and a modern animal facility with behavioral equipment (operant cages; videotracking systems; gait and erasmus ladder for motor behavior; Phenoworld (www.tse-systems.com)); optogenetics; fiber photometry; freely moving electrophysiology.

- **Interdisciplinary Programs** funded by Poitiers University PIA "Excellence" program to provide fundings and opportunities to push the boundaries of knowledge.
- **Transdisciplinary and translational collaborations** between Poitiers University and Poitiers university hospital (CHU), creating possibilities to attract young trainees and partnerships with clinical medicine doctors via our local INSERM center for clinical investigations (CIC).

HOW TO APPLY:

Your application must include:

- A statement of research interests
- Comprehensive *curriculum vitae* with a full list of publications
- 2-3 contact informations for academic references

PLEASE SUBMIT YOUR APPLICATION TO lnec@univ-poitiers.fr

IMPORTANT:

- There is no deadline for application submission
- All applicants will receive a prompt response.

Poitiers University in short figures... Founded in 1431, it is one of Europe's oldest universities. Located in a city rich in Art & History and known for its quality of life, University's strength lies in the strong links between Teaching and Research. It has an enrollment of more than 30,000, including 4,000 international students coming from 136 countries. It has a faculty and staff numbering more than 3000. A wide array of services is available to faculty and students in a pleasant, human scaled academic environment.

We eagerly anticipate the opportunity to welcome you and embark on collaborative endeavors together!
